The Contractor shall not endanger any of the property occupants or workers; and shall leave the areas safe for re-occupancy.

### C.2 GENERAL SCOPE OF WORK

The Contractor shall adequately suppress mosquitoes. Refer to the attached Statement of Work for specific instructions.

### C.3 DEFINITIONS AND REGULATIONS

#### C.3.1 DEFINITIONS

The following terms as used in this contract are hereby defined as follows:

Aerosol: A system consisting of solid or liquid particles suspended in air.

Clean or Decontaminate: To remove thoroughly mosquito residue from surfaces. To accomplish this, refer to the pesticide manufacturer's recommendations for cleaning and decontamination.

Contractor: The Pest Control Contractor

COR: Contracting Officer's Representative.

DAPU: Department-authorized professional-use pesticides that are listed on Table 2 of the Department's Integrated Pest Management Program document or others that have been authorized (by A/FBO/OPS/SAF SHEM) for a specific application. These pesticides are also listed in Exhibit 2 of Section J.

DOS: Department of State

Emulsifiable Concentrates: Emulsifiable concentrates permit chemicals which do not dissolve in water, to be suspended in water with water as the extending or diluting material. This is accomplished by dissolving the toxicant in its usual solvent and adding an emulsifying agent to make it possible for small droplets of the solvent, carrying the toxicant to remain dispersed, throughout the water. The emulsion contains water, solvent, pesticide, and emulsifier.

EPA: The U.S. Environmental Protection Agency.

Fumigation: The act of introducing a toxic chemical in an enclosed area in such a manner that it disperses quickly and acts on the target organism in the gaseous or vapor state.

Integrated Pest Management (IPM) Program: IPM is a written, planned program for long-term pest control that employs habitat modification to reduce the prevalence of pests, self-help measures such as traps and consumer pesticides, and, as a last resort, professionally applied Department-authorized pesticides (DAPUs).

Label/ Labeling: All printed material included with a pesticide product that describes how the pesticide may be used and provides directions and precautions. This material may include multiple pages of information in the form of a separate booklet enclosed with the pesticide. All of this information comprises the labeling which users must legally follow.

Log: An official record of all activities that occurred during the term of the contract and identifying the various work locations, Contractor personnel, and other pertinent information.

Monitoring: The process of visually inspecting a specific application of pesticide(s) to determine the proper use and adherence to the labeled instructions as well as general safety precautions.

Pest Control Activities: All activities from initiation of work area preparation through successful treatment of the target pest identified within the Initial Inspection Report.

Pest Control Plan (PCP): The Contractor shall develop a written Pest Control Plan after the initial site inspection and submit such plan to the COR for approval. This Plan shall propose measure to reduce the existing pest population and prevent future infestations. Section J, Exhibit 1, contains a model Pest Control Plan form.

OSHO: Post Occupational Safety and Health Officer.

Supervisor: An on-site Supervisor and an alternate shall have the Contractor's authority to act on matters pertaining to the performance of services required under this contract. This individual shall ensure safety and carry out coordination and continuity of the program routine. The on-site Supervisor and alternate shall both have a working knowledge of this contract; the PCP; and Service Schedule for each of the properties. Additionally, the on-site Supervisor and alternate must both be certified as required by the laws and regulations of the host country.

Work Area: The area where a pesticide is being applied. This includes any areas adjacent to which building occupants could be exposed to the pesticide(s) being applied.

### C.3.2 DOS POLICIES, REGULATIONS, AND STANDARDS

The Department of State Safety, Health, and Environmental Management Resource Guide is incorporated by reference and made part of the specifications.

Requirements include adherence to work practices and procedures stated in applicable codes and regulations. Requirements include obtaining permits, licenses, inspections, releases and similar documentation, as well as payments, statements and similar requirements associated with codes and regulations.

The Department of State (DOS) and other U.S. Government policies, regulations, and standards listed elsewhere in this contract by reference are made a part of this contract.

#### C.4 SPECIFIC TASKS

##### C.4.1 TASK 1 - INITIAL INSPECTION

The Contractor shall conduct a thorough, initial inspection of the property or site when specified in the task order. The purpose of the initial inspection is for the Contractor to:

- verify site conditions;
- identify the insect or organism to be controlled;
- identify problem areas;
- identify any equipment, structural features, or management practices that are contributing to pest infestations; and,
- develop a Pest Control Plan.

The Contractor shall coordinate access to building space with the Contracting Officer's Representative (COR). The COR will inform the Contractor of any restrictions or areas requiring special scheduling.

##### C.4.2 TASK 2 - DEVELOP A PEST CONTROL PLAN

Before starting performance, the Contractor shall submit to the COR a Mosquito Control Plan for each property or site identified in the Task Order within 5 days following the initial inspection. Upon receipt of the Pest Control Plan, the COR will render a decision regarding its acceptability within 10 days. The Contractor shall be on site to initiate service within 10 days following notice of approval. If aspects of the Mosquito Control Plan are incomplete or disapproved, the Contractor shall have five days to submit revisions.

The Mosquito Control Plan shall consist of the following parts:

1. Proposed methods for control, including name of any pesticide(s) to be used, specimen labels and Material Safety Data Sheets (MSDS sheets) for all pesticides proposed to be used. The Contractor shall include a list of brand names of rodent bait boxes and any other control devices or equipment.
2. Methods to be used to ensure the safety of building occupants and visitors to the site.
3. A description of the pest problem and any structural or operational changes that would facilitate the pest control effort.
4. A list identifying the on-site person(s) who will be performing the pest control work. All pertinent information regarding their qualifications, experience, and training must also be provided.

**NOTE: All pesticides used by the Contractor must be authorized by the Department. Department-authorized professional-use pesticides (DAPU) are found in Exhibit 2. (See Exhibit 2, Department-Authorized EPA-Registered Professional-Use Pesticides for Common Pests). Use of non-chemical pesticides is encouraged. Consult the SHEM website (<http://obo.state.gov/opssaf-shem>) for the most current version of all Exhibits in this model.**

#### C.4.3 TASK 3 - APPLY PESTICIDE

##### General

The Contractor shall not apply any pesticide product unless it is included in the Pest Control Plan and approved in writing by the COR. As a general rule, the Contractor shall not apply pesticides in any area unless the Contractor's inspections indicate the presence of pests in that specific area, inside or outside the premises - in any room, closet, hallway, stairwell, court, driveway, planting bed, and similar locations.

The Contractor shall deliver all materials and supplies to the site in the original unopened containers bearing the name of the manufacturer and details for proper mixing, application, storage and disposal.

The Contractor shall apprise all workers, supervisory personnel, and any other contractors who will be at the work site of the seriousness of the hazard and of proper work procedures, which must be followed.

The Contractor shall coordinate any and all pesticide use and activities with the COR before actual application. If the COR is not the POSHO, the COR will receive the approval of the POSHO before instructing the Contractor to begin application. The COR shall obtain copies of the Material Safety Data Sheets and pesticide labeling and provide them to the Contractor for the pesticides being used so that protective measures and/or spills may be properly addressed.

The COR shall provide the Contractor with the following:

- Access to all identified areas for pest control, and
- Water and electricity from outside of the work area. The Contractor shall be responsible for the tie-ins to these services.

- A designated space for the Contractor to park vehicles necessary to perform the work, if required.
- The name and phone number of at least one building authority who can be contacted 24 hours a day, if other than the COR.

### Mosquito Control

Pesticide Products and Use: When a professional pesticide must be used for adequate control, the Contractor shall apply an appropriate Department-authorized professional-use pesticide and comply with all instructions and precautions noted on the specimen label as well as Department specifications, which are a subset of the labeling.

The Contractor shall apply pesticides according to the label and Department specifications (refer to the Department's Integrated Pest Management Program document). All pesticides used by the Contractor must be registered and authorized by the Department. The contractor's transport, handling, and use of all pesticides shall be in strict accordance with the manufacturer's label instructions; all applicable U.S. Federal laws and regulations; and any applicable international or host country laws and regulations.

The Contractor shall minimize the use of liquid pesticide applications wherever possible. For example, as a general rule, the contractor shall apply pesticide formulations only as spot and/or crack, and crevice treatments with application devices specifically designed or modified for this purpose.

- "Crack and crevice treatment" is defined as an application in which the stream of pesticide is never visible. Small amounts of insecticides are applied into cracks and crevices in which insects hide or through which they may enter buildings. Such openings commonly occur at expansion joints, between different elements of construction, and between equipment and floors. These openings may lead to voids such as hollow walls, equipment legs and bases, conduits, motor housings, junction or switch boxes.
- "Spot applications" are limited to areas in which insects are likely to occur, but which will not be in contact with food or utensils and will not ordinarily be contacted by workers. These areas may occur on floors, walls, and bases or undersides of equipment. For this purpose, a "spot" will not exceed 3 square feet.

The Contractor shall restrict application of pesticide liquid, aerosol, or dust to exposed surfaces, and pesticide space sprays (including fogs, mists, and ultra-low volume applications), to unique situations where no alternative measures are practical. Special authorization will be required from the COR.

If the proposed pesticide is not already authorized in the Department's Integrated Pest Management Program document, the Contractor must submit a written request for authorization to the COR before applying the pesticide. The COR shall render a decision regarding the treatment before its application. The Contractor shall take all necessary precautions to ensure

tenant and employee safety, and all necessary steps to ensure the containment of the pesticide to the site of application. Other than spot or crack and crevice treatments, the Contractor shall make no applications of professional-use pesticides while tenant occupants are present.

#### C.4.4 TASK 4 - INSPECTION AND ACCEPTANCE

After the Contractor notifies the COR that the service has been provided, the COR shall visually inspect the work area/treated area. If the work is not satisfactory, the COR shall advise the Contractor in writing. The COR shall repeat the inspection when assured that the work has been completed. The COR shall periodically conduct an unannounced site visit to observe and ensure that the Contractor is implementing all requirements specified in the Pest Control Plan.

When the work has been satisfactorily completed, the COR shall certify acceptance on the OF-127, Receiving and Inspection Report.

#### C.4.5 TASK 5 - CLEAN-UP OF AREA

Upon final acceptance by the COR, the Contractor shall remove temporary protective measures, tarps placed up for fumigation, and facilities installed for work by the Contractor. The contractor shall remove any warning placards.

The Contractor shall remove all tools, equipment and supplies from the work area. The contractor shall not leave behind pesticides, empty pesticide containers or equipment used for pesticide application in the work area.

The work area shall be free of dirt and/or debris when the project is complete. The contractor shall patch and cover all holes drilled by the Contractor with standard construction materials.

The Contractor shall comply with the Department of State's cleaning and safety regulations. The Contractor shall not:

- Burn waste materials.
- Bury debris or excess materials.
- Allow volatile, harmful or dangerous materials to enter the drainage system.

#### C.4.6 OTHER REQUIREMENTS

##### Manner and Time to Conduct Service

The Contractor shall perform routine pest control services that do not adversely affect tenant health or productivity during the regular hours of operation in buildings. When it is necessary to perform work outside of the regularly scheduled hours set forth in the Pest Control Plan, the Contractor shall notify the COR at least one day in advance.

### Safety Precautions

The Contractor shall observe all safety precautions throughout the performance of this contract and be prepared to clean up any pesticide spills. The Contractor shall provide for proper protection of applicators in accordance with label instructions and local country safety and health requirements. Certain areas within some buildings may require special instructions for persons entering the building. The COR will explain any restrictions associated with these special areas. The Contractor shall adhere to these restrictions and incorporate them into the Pest Control Plan for the specific building or site. The following areas are restricted: Areas as designated by COR.

The Contractor shall take appropriate continuous measures as necessary to protect all building occupants from the hazard of exposure to pesticides. The Contractor shall assume full responsibility and liability for compliance with all applicable regulations pertaining to the health and safety of personnel during the execution of work, and shall hold the Government harmless for any action on its part or that of its employees or subcontractors that results in illness or death.

### Insurance

The Contractor shall submit a certificate of comprehensive general liability insurance including bodily injury, personal injury, premises/operations, independent contractors, products and completed operations, contractual liability and broad form property damage. The insurance shall include a specific endorsement for the extension of coverage to Pest Control and pesticide applications. The State Department shall be shown on the certificate as an "additional insured". A copy of the policy shall be provided with any Certificate of Insurance. The certificate shall further provide that the State Department be given thirty (30) days prior notice of cancellation or any change in coverage. Minimum acceptable liability coverage is:

\$100,000.00 Combined Single Incident Limit for Bodily Injury and Property Damage,  
and

\$100,000.00 Bodily Injury and Property Damage (each occurrence)

If umbrella excess coverage is used to satisfy these limits, the certificate of insurance shall indicate that it is following the Primary Policy.

### Contractor Personnel

All Contractor personnel providing on-site pest control service must meet local requirements in the host country where service is actually performed, for training, registration, or certification as may be required by the local laws of the host country. Unqualified individuals shall not be permitted to provide service under the terms of this contract. In addition, all applicators must review, understand and abide by the pesticide labeling instructions and Department-authorized uses, which are a subset of the labeling instructions.

The COR may request removal of any Contractor personnel from the work site for cause, such as inappropriate behavior, unfit persons not skilled in the work, or lack of appropriate

equipment or materials. The Government shall not be responsible for the cost of returning or replacing this person at the work site.

#### Contractor Use of Premises

The Contractor shall confine operations to the areas specified in this contract. The contractor shall not disturb portions of the site beyond areas in which work is indicated.

The Contractor shall conform to the Post's security rules and regulations affecting the work while engaged in pesticide application or regarding personal behavior.

The Contractor shall keep existing driveways and entrances serving the premises clear and available to Post personnel and the public at all times.

The Contractor shall not unreasonably encumber the site with materials or equipment.

The Contractor shall take all necessary precautions to protect the building or site and its occupants during the application of pesticides. The COR shall provide the occupant(s) of the property(ies) to be treated with a notice of pesticide precautions focusing on whether premises should be vacated and the applicable re-entry requirements. A notification form from M/DGP/MED/EHPM is included as Exhibit 3 in Section J of this contract.

#### Owner Occupancy

The Government shall occupy the portions of the buildings not affected by the pest control operations during the period of application. The Contractor shall cooperate fully with the COR to minimize conflicts and to facilitate occupant's usage. The Contractor shall perform the work so as to interfere with Post operations as little as possible.

#### Reporting Accidents

The Contractor shall prepare and submit to the COR and the POSHO reports of significant accidents on site. The Contractor shall record and document data and actions taken in accordance with industry standards. For this purpose, a significant accident is defined to include events where personal injury is sustained, property loss is sustained, or where the event posed a significant threat of loss of property or personal injury.

### Unusual Conditions

When an unusual condition of the property or site is discovered during work (e.g., pesticide leaks on the interior of foundations, or any pesticide application which may contaminate a building or overexpose an occupant), the Contractor shall stop work immediately and advise the COR. The Contractor shall follow with a special report, if deemed necessary by the COR.

### Emergencies

The Contractor shall discuss emergency service issues with the COR or other Post personnel to reach a common understanding as to fire, ambulance, or other agencies that service the abatement work site in case of an emergency. The Contractor shall post in the work area the telephone numbers and locations of emergency services including, but not limited to, fire, ambulance, doctor, and hospital.

Any Contractor personnel at the work site shall notify emergency service agencies if necessary.

I.2.1 52.216-18 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from date of award through base period or option periods if exercised. See Section F.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

#### I.2.2 52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than 55 calls, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor—

- (1) Any order for a single item in excess of 53;
- (2) Any order for a combination of items in excess of 55; or
- (3) A series of orders from the same ordering office within 14 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirement clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 5 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

#### I.2.3 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Deliver-Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The

contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after one year beyond the contract's effective period.

I.2.4 52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

Funds are not presently available for performance under this contract beyond 30 September of the current calendar year. The Government's obligation for performance of this contract beyond that date is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise for performance under this contract beyond 30 September of the current calendar year, until funds are made available to the Contracting Officer for performance and until the Contractor receives notice of availability, to be confirmed in writing by the Contracting Officer.

(3) Complying or agreeing to comply in the normal course of business with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurance, suppliers of services to be performed within the boycotting country or specific goods which, in the normal course of business, are identifiable by source when imported into the boycotting country;

(6) Compliance by a U.S. person resident in a foreign country or agreement by such person to comply with the laws of that country with respect to his or her activities exclusively therein, and such regulations may contain exceptions for such resident complying with the laws or regulations of that foreign country governing imports into such country of trademarked, trade named, or similarly specifically identifiable products, or components of products for his or her own use, including the performance of contractual services within that country, as may be defined by such regulations.

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples.

This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(ii) The Offeror has  has not , within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) “Principal,” for the purposes of this certification, means an officer; director; owner; partner; or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.
